How can I get help if I have problems?

You may first try the online registration orientation provided at <https://www.ascriptica.com/help/>. You may also contact Griffin RESA via phone at 770-229-3247 and one of our professional learning staff members will assist you.

How does the approval process work and how am I notified when actions are taken on my application?

If you work for one of the school systems in the Griffin RESA region, your application is first sent to your school approver, then the district designee, and finally the RESA PL Director for approval. You are notified via email of the approval status at each level.

Do I have to get approval from my school and district office if I pay for the course myself?

If you work for one of the school systems in the Griffin RESA region, approval is required if *School* or *System Pay* is selected or if released work time is necessary. If *Self Pay* is selected and no released time is required, school and/or district approval may not be required.

Who will approve my application?

Generally, your principal will approve your application at the school level. The system has a designated staff member who will approve it at the district level. The RESA Professional Learning Director will approve it at the RESA level.

Can my email address be used to register for someone else?

No. Each registrant must complete the individual profile. A registration using your email and password will be matched by the system with your Griffin RESA profile.

Must I use my school email and/or password?

No. You may use any valid email address, but we highly recommend using an email address you check often. You may select any password you wish; it does not have to be the same as your school or home email password.

Can I register for someone else?

No, individuals should register for courses on their own, as the registration site is password sensitive and contains confidential information.
