*Teaching Science in Early Childhood (202569)*

Course 2: December 3 – February 25

*Life Science and Earth Science (202570)*

Course 3: March 4 – May 13

*Physical Science and Space Science (202571)*

**Application Deadline:** September 9, 2024

## ENDORSEMENT DESCRIPTION

We are pleased to offer the K-5 Science Endorsement for teachers who wish to enhance their science content and pedagogical knowledge, as well as support the STEM efforts of their schools. The series of courses includes: 1) Teaching Science in Early Childhood, 2) Life Science and Earth Science, and 3) Physical Science and Space Science. Each course consists of 50 instructional hours, delivered in a blended online format. Candidates will complete an authentic residency during which they will practice and refine their skills and knowledge and receive valuable feedback. ZOOM sessions will take place online, attendance at all sessions is mandatory. The remainder of the coursework will take place on an interactive online platform.

### Required Texts -

- Teaching Children Science: A Discovery Approach, 9<sup>th</sup> Edition by Donald A. DeRosa and Joseph Abruscato
- Teaching Science in Diverse Classrooms: Real Science for Real Students by Douglas B. Larkin
